If you have any questions about filling in the form, please contact Kathy 250-801-3783 or knuszdor@gmail.com

Complete form by end of year and 1) email knuszdor@gmail.com OR 2) bring to the AGM OR 3) mail to Kathy Nuszdorfer 189 Traders Cove Rd Kelowna, BC V1Z 3S4

Add comments of interest to the membership at large to be included in the newsletter, The Nestbox:

Some examples and clarification for data entry as follows. These may seem simple, but many forms are incomplete.

1. The "Total # of Nestboxes Available" should not be less than the "Total # of Nestboxes Used".
2. The "# of Boxes Used" by the individual "Cavity Nesting Species" may not be equal to the "Total # of Nestboxes Used" at the top of the form. (i.e. I have 3 nestboxes, all are used by bluebirds on the first nesting, a pair of swallows then nests after one of the bluebirds; my "Total # of Nestboxes Used" is 3 but if I add the "# of Boxes Used" by the individual "Cavity Nesting Species" it will total 4)
3. The "# of Boxes Used" by the individual "Cavity Nesting Species" should not include in the number of boxes that had a second nestings. (i.e. a nestbox is used by Western Bluebirds, they lay 5 eggs, all hatch & all fledge; there is a second nesting of Western Bluebirds in that same box ; they lay 4 eggs, all hatch & fledge; you enter 1 box used, 9 eggs, 9 hatched, 9 fledged, 1 second nesting.) Remember that second nestings in a box by the same species may not be the same pair.
4. Check that your form is complete. Many times the "Total # of Nestboxes Available" is left blank. When compiling the data your previous year's form is not used so the # of boxes is unknown. You may also have lost a nestbox to predators over the winter or revamped your trail and this of course alters your numbers.
